UTHAYA KUMAR M

ASPIRING MERN STACK & FULL STACK DEVELOPER

Email: uk8388371@gmail.com Phone: +91 6369943595

Professional Summary

Aspiring MERN Stack and Full Stack Developer with hands-on experience in developing modern web applications using the MERN Stack and Flutter. Completed a one-month offline internship in MERN Stack Development and a remote IBM Cognos Analytics Internship. Passionate about designing responsive, scalable, and user-friendly applications with strong problem-solving skills. Experienced in building real-world projects including an e-commerce platform and a college bus tracking application. Continuously learning new technologies to build innovative software solutions.

Technical Skills

Frontend: React.js, Flutter, HTML5, CSS3, JavaScript (ES6+), Bootstrap, Responsive Web Design

Backend: Node.js, Express.js, REST APIs

Database: MongoDB, MySQL

Programming Languages: C++, Python, JavaScript

Tools: Git, GitHub, VS Code, Postman

Other Skills: MERN Stack Development, UI/UX Design, API Integration

Intenships

IBM Cognos Analytics Intern (Remote) **March 2026 – April 2026**

IBM

- Built interactive dashboards using IBM Cognos Analytics.
- Performed data visualization and business reporting using real-world datasets.
- Gained practical knowledge in Business Intelligence and Analytics.

MERN Stack Development Intern **1 Month**

Bevy Wise Networks (Offline)

- Developed responsive full-stack web applications using the MERN Stack.
- Worked with React.js, Node.js, Express.js, MongoDB and REST APIs.
- Implemented authentication, CRUD operations and database connectivity.
- Collaborated with mentors to improve application performance and usability.

Key Projects

EduTrade – MERN Stack

React.js — Node.js — Express.js — MongoDB

- Developed a student-to-student e-commerce platform for buying and selling books, laboratory equipment, stationery, project materials and electronics.
- Implemented secure authentication, product management, category filtering, shopping cart and wishlist.
- Designed a responsive interface with separate buyer and seller functionalities.

BusBuddy – Flutter Application

Flutter — Node.js — MySQL

- Developed a college bus tracking application for students and staff.
- Implemented bus routes, stop notifications, attendance management and real-time updates.
- Integrated Flutter frontend with Node.js backend and MySQL database.

Education

B.Tech – Information Technology **2023 – 2027**

Dr. Sivanthi Aditanar College of Engineering, Tiruchendur

CGPA: **7.63 (Current)**

Higher Secondary Certificate (HSC) **2023**

Schaffter Higher Secondary School, Tirunelveli

Percentage: **79%**

Certifications

IBM Cognos Analytics Internship, MERN Stack Development Internship, Python Programming, React.js Development, MongoDB Fundamentals, Git & GitHub, REST API Development

Languages

Tamil (Native) — English (Professional)

Interests

Full Stack Web Development, MERN Stack Development, Flutter App Development, UI/UX Design, AI, Internet of Things (IoT), Problem Solving
